## REMA TIP TOP Gladstone

REMA TIP TOP Gladstone specialises in comprehensive conveyor belt maintenance and industrial solutions tailored to meet the unique demands of local industries. With our expert team and high-quality products, we're dedicated to ensuring your operations run smoothly and efficiently.

# ABOUT US

REMA TIP TOP was founded in 1927 as a rubber manufacturing company. For almost a century, Rema Tip Top has focused on innovation and technological developments taking the company's capabilities far beyond rubber manufacturing. Rema Tip Top products are used across the globe to extend the service life and reduce maintenance costs of its customers' assets.

For Australian industry, we provide products, services and project management for Australia's major mining houses, OEMs, EPCMs, and other organisations and suppliers across most industries. From specialist rubber lining, wear and corrosion protection, to total conveyor maintenance, management and product supply, we are a global market leader in products and services for materials processing and surface protection.

In Australia, Rema Tip Top has more than 500 employees, including a services network of more than 400 personnel operating out of strategically located hubs around the country.

In addition to our on-site service capability, Rema Tip Top operates dedicated rubber lining workshops in Perth, Brisbane, and key locations across Australia. Each facility is equipped with purpose-built infrastructure and staffed by experienced technicians committed to delivering high-quality, wear-resistant lining solutions for a wide range of industrial components.

We've worked with a range of industry leaders around the world to deliver innovative, best-in-class bulk materials handling solutions. Our experience is unmatched, as is our commitment to safely delivering projects that are efficient and value aligned with our clients.

## REMA TIP TOP GLADSTONE

Located in the heart of Gladstone, our REMA TIP TOP branch specialises in comprehensive conveyor belt maintenance and industrial solutions tailored to meet the unique demands of local industries. With our expert team and high-quality products, we're dedicated to ensuring your operations run smoothly and efficiently. We're experts in providing end-to-end solutions, including but not limited to:

- Conveyor belt services and solutions
- Belt cleaner maintenance
- Belt splicing
- Pulley lagging
- Belt condition monitoring
- Belt tracking and alignment
- Idler and skirting replacements
- Dust suppression systems
- 24/7 breakdown response
- Onsite inspections

We have a wealth of experience supporting the region's mines, quarries, ports, and manufacturing. We're always here to support the region's local industry operations to become more efficient than ever.

# CONVEYOR MAINTENANCE, ONSITE SERVICES & BREAKDOWN RESPONSE

Conveyor systems are critical to plant performance. At Rema Tip Top Gladstone, we treat conveyors as an integrated system, combining premium products, advanced monitoring and analytics, and experienced conveyor specialists to keep operations moving safely and efficiently. We deliver full-scope conveyor maintenance to extend asset life, minimise downtime and protect throughput. Our local team provides inspections and audits, belt installs and repairs, tracking and alignment, cleaning maintenance, pulley lagging, idler and skirting replacements, and condition monitoring; supporting reliable material flow from pit to port.

## Onsite Services & Maintenance

Our customers rely on our individualised, 24/7 onsite support when it matters most. We offer a comprehensive range of services to keep you up and running, delivered by highly skilled, trained and motivated service crews.

### Maintenance Services include:

- 24/7 availability of service crews for major plant issues and breakdowns
- Belt splicing and repair
- Pulley lagging and refurbishment
- Mechanical maintenance
- Inspection, monitoring and consulting using CMMS

### Mechanical Services

Beyond belts, our mechanical services cover idler and frame works, pulley removal, refurbishment and lagging, skirting system installation and adjustment, tracking frame installation, spray bar installation, guarding and safety compliance, and structural realignment or modification. With specialised tooling and lifting equipment, our crews deliver work safely during scheduled maintenance, shutdowns or unplanned events.

### Breakdown Response

Our rapid breakdown response capability ensures fast mobilisation, effective fault finding and safe repairs to restore operations as quickly as possible. Backed by local expertise and Rema Tip Top's national network, we respond decisively to minimise unplanned downtime and protect people, assets and production.

# INNOVATION & TECHNOLOGY

Our vision is to be the industry's top conveyor solutions provider, renowned for delivering innovative, reliable & cost effective outcomes. Our mission is to deliver the world's best conveyor solutions through the application of engineering, advanced analytics and the latest technology.

Innovation is at the core of Rema Tip Top's approach to conveyor reliability and asset performance. Through its analysis & innovation capability, Rema Tip Top brings together engineering expertise, advanced analytics, and modern monitoring technologies to improve safety outcomes, reduce costs, and increase plant availability. Data-driven insights are used to optimise conveyor systems, moving maintenance from reactive to predictive and condition-based strategies.

This commitment to innovation is delivered locally at our Gladstone branch. Our teams apply proven technologies such as real-time conveyor monitoring, condition assessment tools, and digital inspection and reporting systems to support informed maintenance planning and early fault detection. By combining local operational knowledge with Rema Tip Top's national and global innovation capability, Gladstone customers benefit from smarter maintenance decisions, reduced unplanned downtime, and improved asset life.

From advanced monitoring solutions to data-backed maintenance recommendations, we ensure innovation is not just developed, but actively implemented on site to deliver measurable operational outcomes.

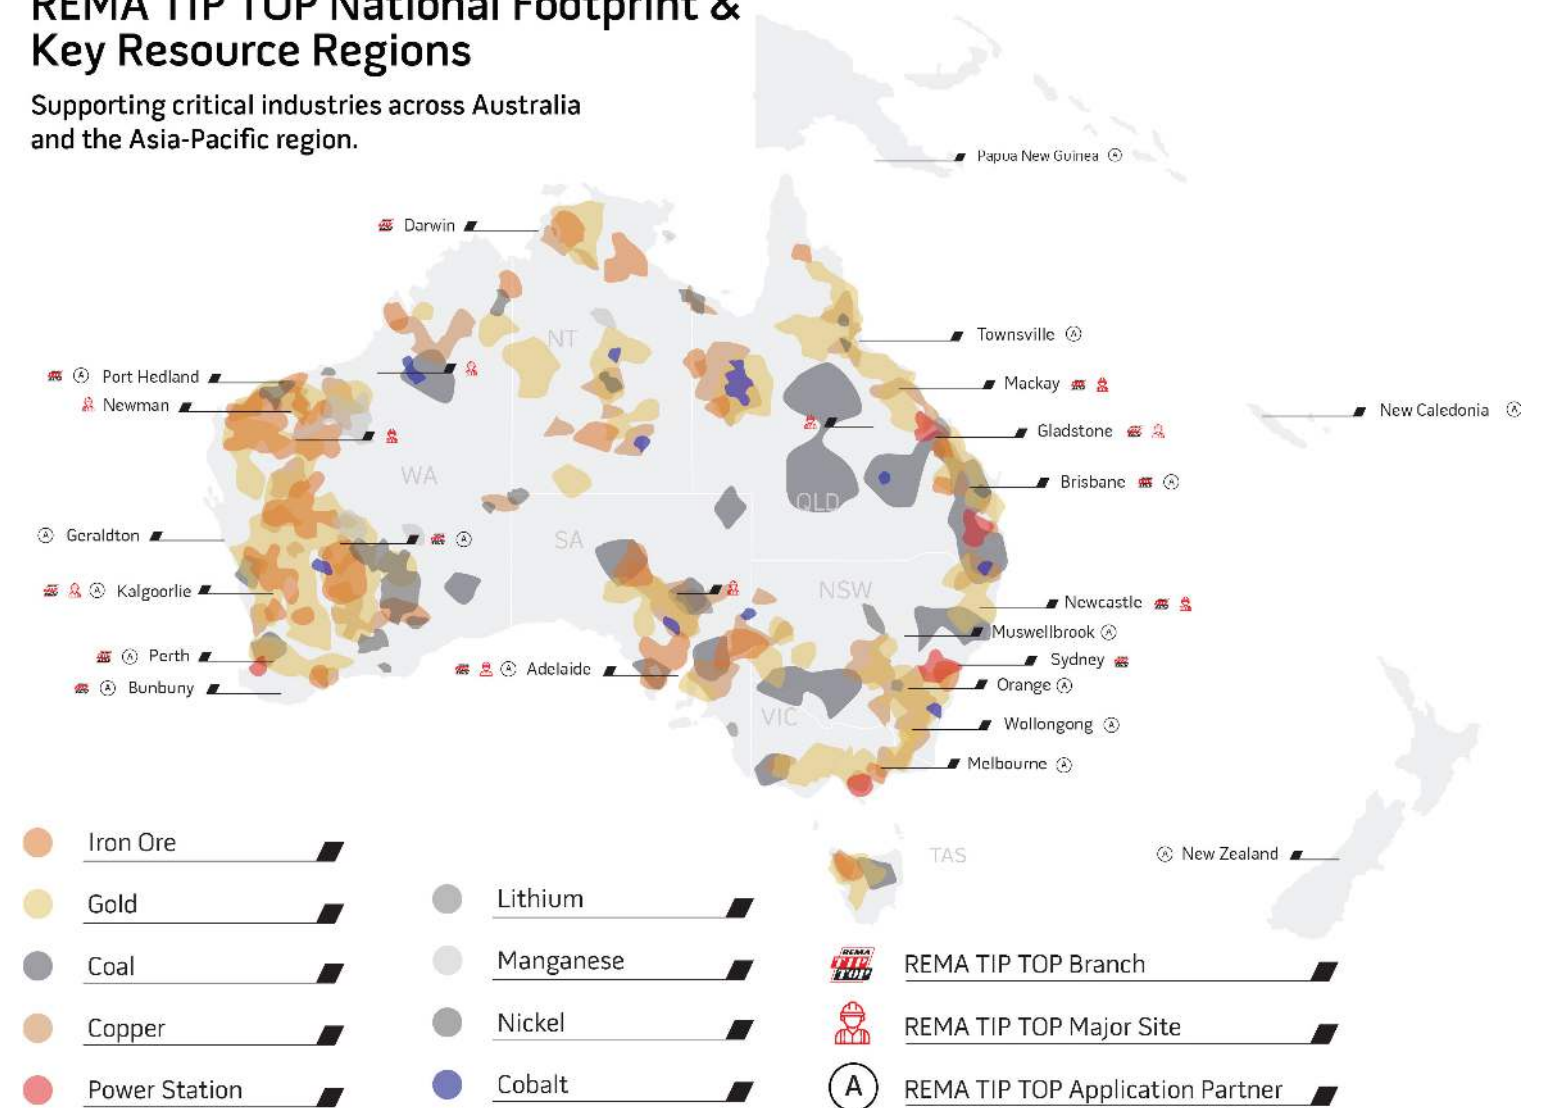

Right across Australia we work with our customers to extend the service life of their plants and reduce maintenance costs

From mining in coal, iron ore and minerals to energy generation, we offer products and services across the entire value chain to maximise productivity, efficiency and profitability.

## REMA TIP TOP National Footprint & Key Resource Regions

Supporting critical industries across Australia and the Asia-Pacific region.

# Keeping Your Assets Safely in Motion

## OUR VALUES

We work collaboratively with our customers to build relationships that are value aligned, while working in some of the most challenging environments on the planet.

We're constantly pushing the boundaries to innovate, advocate and to ensure that our people can safely deliver sustainable business operations today and into the future.

At the heart of our work are the values that guide how we operate: Respect, MateSafe, Equality, and Accountability. These principles shape our culture, drive our decisions, and define how we work with one another and with our clients.

### Respect

We treat everyone with consideration and appreciation, valuing diverse perspectives and contributions. Respect is the foundation of how we interact with colleagues, clients, and the broader community.

### MateSafe

We prioritise safety and well-being, ensuring that every team member operates in a secure and supportive environment. Our MateSafe initiative reinforces a strong safety culture where looking out for each other is second nature.

### Equality

We ensure equal rights and opportunities for all, creating an inclusive environment where every individual is valued, heard, and empowered to succeed.

### Accountability

We take responsibility for our actions and outcomes, upholding the highest standards in everything we do. Accountability drives our commitment to excellence, trust, and reliability.
