REMA TIP TOP KALGOORLIE

REMA TIP TOP Kalgoorlie facility in Western Australia is a leader in providing specialised industrial services, known for its advanced solutions and quality workmanship. Our range of wear protection, conveying solutions and technologies, surface protection products and 24-hour service model increases your throughput potential, by reducing downtime and improving plant availability. Our Kalgoorlie branch is proudly operated by local residents.

ABOUT US

REMA TIP TOP was founded in 1927 as a rubber manufacturing company. For almost a century, Rema Tip Top has focused on innovation and technological developments taking the company's capabilities far beyond rubber manufacturing. Rema Tip Top products are used across the globe to extend the service life and reduce maintenance costs of its customers' assets.

For Australian industry, we provide products, services and project management for Australia's major mining houses, OEMs, EPCMs, and other organisations and suppliers across most industries. From specialist rubber lining, wear and corrosion protection, to total conveyor maintenance, management and product supply, we are a global market leader in products and services for materials processing and surface protection.

In Australia, Rema Tip Top has more than 500 employees, including a services network of more than 400 personnel operating out of strategically located hubs around the country.

In addition to our on-site service capability, Rema Tip Top operates dedicated rubber lining workshops in Perth, Brisbane, and key locations across Australia. Each facility is equipped with purpose-built infrastructure and staffed by experienced technicians committed to delivering high-quality, wear-resistant lining solutions for a wide range of industrial components.

We've worked with a range of industry leaders around the world to deliver innovative, best-in-class bulk materials handling solutions. Our experience is unmatched, as is our commitment to safely delivering projects that are efficient and value aligned with our clients.

REMA TIP TOP KALGOORLIE

Our crews operate 24 hours a day, 7 days a week - that means you never have to handle shutdowns or unplanned downtime without the full support of our maintenance team. On top of our service division we also have a fully equipped warehouse facility and trained service personnel. Kalgoorlie's warehouse is fully stocked with conveyor belt, conveyor rollers and belt cleaners and replacement parts. The warehouse is stocked at all times to be fully equipped for unscheduled downtime. We're experts in providing end-to-end solutions, including but not limited to:

- Conveyor belt installations
- Onsite rubber lining shutdowns
- Onsite inspections
- Roller supply and installation (trough, impact, guide and return rollers)
- Skirting rubber supply and installation
- Belt cleaner supply and installation
- V-plough supply and installation
- Conveyor belt trackers supply and installation
- Impact bed supply and installation
- Magnet conveyor belt fabrication and supply

Located in the Goldfields, the Kalgoorlie branch focuses on serving industries in the mining (Gold, Lithium, Nickel), quarrying, port facilities and manufacturing sectors.

RUBBER LINING SERVICES

Rema Tip Top's Kalgoorlie Branch provides specialist rubber lining services designed to protect plant and equipment in harsh industrial environments. Our solutions are tailored to the requirements of mining, resources, and heavy industry operations across the Goldfields region.

Rubber lining is a proven method for safeguarding equipment against abrasion, impact, corrosion, and chemical attack. Rema Tip Top delivers engineered rubber lining systems that extend asset life, improve reliability, and reduce maintenance costs. Supported by Rema Tip Top's global materials expertise, the Kalgoorlie Branch applies premium rubber compounds and proven installation techniques to ensure long-term performance and consistent quality.

Rubber Lining Capabilities:

- Chutes and hoppers
- Tanks and pipes
- Impact, abrasion, and corrosion-resistant linings
- Custom-designed wear protection systems

All rubber lining works are performed by experienced local technicians. Services include surface preparation, rubber selection, installation, inspection, and ongoing maintenance support.

With a focus on safety, durability, and operational continuity, Kalgoorlie delivers reliable rubber lining solutions that minimise downtime and support sustained production.

CONVEYOR BELT SOLUTIONS

Conveyor systems are critical to the safety, productivity, and reliability of industrial operations. Rema Tip Top supplies and supports conveyor systems as fully integrated assets, combining premium conveyor belting, engineered conveyor products, and experienced local technical expertise to optimise performance and minimise downtime.

Rema Tip Top conveyor belts are manufactured in advanced production facilities across Europe, South Africa, and China, including Dunlop Belting Products South Africa. The product range includes fabric ply, steel cord, and solid woven conveyor belts, engineered to suit a wide variety of applications and manufactured to Australian standards, including FRAS requirements. Rema Tip Top is also one of Australia's largest conveyor belt stockists, enabling rapid supply and reduced lead times.

The Kalgoorlie Branch provides local supply, installation, and maintenance of conveyor belting to support the demanding conditions of mining and heavy industry across the Goldfields region.

Fire Resistant and Anti-Static (FRAS) Belting

Rema Tip Top stocks a comprehensive range of FRAS conveyor belting for safety-critical environments. This includes the Flame Tech PVG range designed for underground coal and high-risk applications. All FRAS belting is subject to stringent quality control and complies with applicable safety standards.

Wear-Resistant Conveyor Belting

Rema Tip Top's WEARTECH M-Grade conveyor belting features a high-performance cover compound offering excellent resistance to abrasion, cuts, and gouging, delivering extended belt life and reduced total cost of ownership.

Conveyor Products

With strong local capability supported by global manufacturing expertise, Kalgoorlie delivers reliable, safe, and cost-effective conveyor belt solutions for demanding industrial environments. Our warehouse is fully equipped and stocked for all your conveyor needs.

Supporting critical industries across Australia and the Asia-Pacific region.

Keeping Your Assets Safely in Motion

OUR VALUES

We work collaboratively with our customers to build relationships that are value aligned, while working in some of the most challenging environments on the planet.

We're constantly pushing the boundaries to innovate, advocate and to ensure that our people can safely deliver sustainable business operations today and into the future.

At the heart of our work are the values that guide how we operate: Respect, MateSafe, Equality, and Accountability. These principles shape our culture, drive our decisions, and define how we work with one another and with our clients.

Respect

We treat everyone with consideration and appreciation, valuing diverse perspectives and contributions. Respect is the foundation of how we interact with colleagues, clients, and the broader community.

MateSafe

We prioritise safety and well-being, ensuring that every team member operates in a secure and supportive environment. Our MateSafe initiative reinforces a strong safety culture where looking out for each other is second nature.

Equality

We ensure equal rights and opportunities for all, creating an inclusive environment where every individual is valued, heard, and empowered to succeed.

Accountability

We take responsibility for our actions and outcomes, upholding the highest standards in everything we do. Accountability drives our commitment to excellence, trust, and reliability.
